

Overview excluded companies by controversial activities and behaviour H1 2026

April 2026

The a.s.r. Policy on Responsible Investments is centered on three key policy goals that underline our commitment to contribute to a better world: reducing harm, driving change, or creating positive impact. We exclude companies and countries that do not meet our criteria for controversial activities or behavior. The assessment of companies is based on two ESG data providers: MSCI ESG and ISS ESG.

Companies with controversial behavior in the form of very severe, repetitive and unmediated breaches of UN Global Compact principles are engaged or excluded from a.s.r. portfolios.

Companies involved in controversial activities such as weapons*, tobacco, gambling production or distribution; nuclear energy when representing more than 50% of revenues; conventional** and unconventional (>5% revenue) oil & gas extraction and production; coal mining and expansion plans; coal-fired electricity generation (>5% revenue); unsustainable palm oil and timber production and distribution. For a further clarification of the screening rules, please see the [Policy on Responsible Investments](#).

* a.s.r. excludes the production, wholesale, and retail of civilian firearms and ammunition, the involvement in the production of whole weapon systems, delivery platforms, or components of controversial weapons, and the production of conventional weapon systems.

** To define conventional oil and gas companies, a.s.r. uses NACE codes 06.10, 06.20, 19.10, 19.20, and 35.21.
